

## **Introduction**

**I have spent years on Betfair and way too much money to mention! Not because I have a gambling problem, but because I have been desperate to find a way to make a small income on the internet and was convinced Betfair was the answer. I was not greedy, just an extra £10 per day would have been perfect for me.**

**The B.E.R.Y.L system was the method I used to reasonable success in my journey to making an income from Betfair that often far exceeds my £10 per day target.**

**You will need to invest time and remember that nothing is guaranteed with any system. Playing the exchange games can be monotonous, so you will need to focus!**

**I will give some pointers and tips at the end of his ebook as to my daily method of making an income from Betfair.**

**I am now able to generate a GUARANTEED income from Betfair. I do not gamble any more; I am able to legitimately withdraw funds by exploiting a simple and little known method. My only regret now is that the fun has been taken out a little, as I know I am guaranteed not to lose and that my bets are no longer bets, but more 'financial transactions'.**

**Enjoy the system in this ebook for what it is: A simple system that you can use as an addition to your other Betfair methods. If you are serious about making an income from Betfair, take note at the end of this ebook- There may be a few clues as to how I make Guaranteed money on Betfair and possibly some pointers as to where you can find the information needed to come up with a similar method for yourself.....Enjoy!**

Firstly, thank you for downloading ..... If you have ever bought anything like this before, you will be familiar with the layout that follows next- Firstly, they will tell you about Betfair, then a chapter on Backing, followed by a chapter on Laying and if you are really unlucky, you will get another few pages on Trading. After reading 40 pages of stuff you know already, you end up with one page of what you are after!

This is a bit different. No fluff, no rubbish copied and pasted from the internet. Just straight to the point, straight to the system that you wanted. I make no apologies for this.

I am pretty sure that if you have found your way to my website and downloaded this system, you are in pretty much the same position that I was in last year. I was 110% convinced that there was a way to make money on the internet, but I was getting more and more frustrated that each method just did not seem to work for me.

When I used to buy guides or manuals like this, I would always click through until I got to the relevant bits. For this reason, I am going to save everyone the hassle of doing this and assume that you have bought this because you know how to Back, how to Lay and how to Trade.

If, however, you are a complete novice (and if you are, I strongly suggest you read this and then watch Betfair Games without putting money down for a week or so) then I have a link for you to read up on. For anyone already familiar, this is the only bit you need to skip through!

<http://help.betfair.com/contents/itemId/i65767719/index.en.html>

(Once open, there is a menu to the left that shows how to back, lay and to trade)

Ok, so you are either already familiar with Betfair Games, or you have just read up how to Back, Lay and Trade and are ready to go!

Lets consider a normal game of Exchange Blackjack and the five options you have:

1. **You back a hand or the dealer.** If the hand or dealer wins, you win your money back, plus a nice little profit. If however, the hand or dealer loses, you lose all the money you put down.
2. **You Lay a hand or dealer.** If the hand or dealer loses, you make a nice little profit. If either go on to win though, you lose the liability of your stake, which can often be a lot more than the stake itself. For this reason, people often avoid Laying for fear of losing large amounts of money in one go. My system will be based on laying, but I am able to bet on a round and win every time either the dealer wins **OR** one of the other hands!
3. **You back 'Dealer wins or ties all'.** If the dealer and the winning hand draw, you will win. If they do not draw however, you will lose your stake.
4. **You lay 'Dealer wins or ties all'** If the dealer and the winning hand do not draw, you will win your stake. If they draw, you will lose your lay liability.
5. **Exotic bets** There are also several 'exotic bets' that can be made, this system does not need to use these bets.

### Betfair settings.

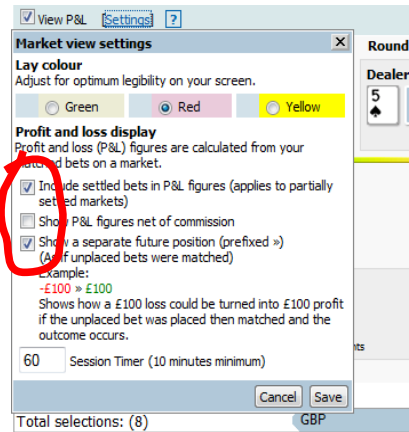

In order to use this system effectively, you will need to alter settings on Betfair.

In the Exchange Blackjack screen, click on 'Settings':

The screenshot shows the Betfair Exchange Blackjack game interface. A red circle highlights the 'Settings' button in the top left corner of the game area, with a red arrow pointing to it. The interface shows a round in progress with a Dealer and four players (Player 1, 2, 3, 4) with their respective cards and points. The bottom of the screen shows a betting table with columns for 'Back' and 'Lay' bets.

	Back	Lay
Player 1	1.8	1.81
Player 2	1.82	1.84
Player 3	1.85	1.86
Player 4		

Once in the settings screen, make sure you tick the boxes exactly as shown:

If you do not change these settings, it will be almost impossible to follow the B.E.R.Y.L system effectively.

We are waiting for a situation where both one of the hands have low odds of below 2 and the 'Dealer wins or ties all' also has low odds:

X-Baccarat • X-Blackjack • X-Hi/Lo • X-Hold'em • X-Omaha Hi • X-Card Derby Racing • Games Help

Round 1 | 2 | 3 | 4 | 5 | 6 | 7

Dealer  
A♠ 5♣  
11 Points

Player 1: K♦ J♣ -Stand- 20 Points

Player 2: 8♥ 10♣ -Stand- 18 Points

Player 3: K♠ J♦ -Stand- 20 Points

Player 4: 3♥ 10♥ 13 Points

	Back			Lay		
<b>Player 1</b>	1.8 £12701	1.81 £1180	1.82 £835	1.84 £824	1.85 £1150	1.86 £12225
<b>Player 2</b>	3.32 £6787	3.34 £633	3.36 £449	3.4 £1072	3.42 £6641	3.46 £2
<b>Player 3</b>	1.8 £12701	1.81 £1180	1.82 £835	1.84 £824	1.85 £1150	1.86 £12225
<b>Player 4</b>	4.8 £4682	4.82 £438	4.84 £312	4.9 £310	4.92 £432	4.94 £4596
<b>Dealer wins or ties all</b>	1.97 £8906	1.98 £829	1.99 £588	2.02 £578	2.03 £7	2.04 £8581

Done

Once you see something like this, you need to act fast, as you need to do a pre-check before submitting your bets to make sure you are on a win-win situation.

Firstly, lay the lowest priced player. In my example, it is player number 3:

Clear All Back All Lay All

AY: To bet against a selection, enter the odds and stake you would like a backer to take. If you win your bet, your profit is the backer's stake. The amount you stand to lose is shown in the liability column.

lay	Backer's Odds	Backer's Stake	<input type="radio"/> Payout <input checked="" type="radio"/> Liability
<input checked="" type="checkbox"/> Player 3 You are betting against Player 3	1.84	20	£16.80

**DO NOT CONFIRM THIS BET YET!**

Pay particular attention to the liability of the bet (the amount on the far right, in this case it is £16.80)

This liability amount is the stake you will use for your next bet. Without confirming your bet, click on the **lay 'Dealer wins or ties all'**.

You must lay this bet with a stake equal to the liability of the first lay:

Clear All Back All Lay All

AY: To bet against a selection, enter the odds and stake you would like a backer to take. If you win your bet, your profit is the backer's stake. The amount you stand to lose is shown in the liability column.

lay	Backer's Odds	Backer's Stake	<input type="radio"/> Payout <input checked="" type="radio"/> Liability
<input checked="" type="checkbox"/> Player 3 You are betting against Player 3	1.84	20	£16.80
<input checked="" type="checkbox"/> Dealer wins or ties all You are betting against Dealer wins or ties all	2.02	16.8	£17.14

**Final checks.**

If the liability on the bet for 'Dealer wins or ties all' is LESS than the stake for the player, you have a bet!!

In our example above, the liability on the bet for the 'Dealer wins or ties all' is £17.14.

The stake for the player 3 is £20.00.

You have a bet!!

If you want to double, double check, look at the odds. Because you have changed the settings on Betfair, you will see projected odds below the stakes:

Total selections: (8)		GBP			Back			Lay		
<b>Player 1</b>		<b>1.8</b> £12701	<b>1.81</b> £1180	<b>1.82</b> £835	<b>1.84</b> £824	<b>1.85</b> £1150	<b>1.86</b> £12225			
<b>Player 2</b>		<b>3.32</b> £6787	<b>3.34</b> £633	<b>3.36</b> £449	<b>3.4</b> £1072	<b>3.42</b> £6641	<b>3.46</b> £2			
<b>Player 3</b>	» -£16.80, £20.00	<b>1.8</b> £12701	<b>1.81</b> £1180	<b>1.82</b> £835	<b>1.84</b> £824	<b>1.85</b> £1150	<b>1.86</b> £12225			
<b>Player 4</b>		<b>4.8</b> £4682	<b>4.82</b> £438	<b>4.84</b> £312	<b>4.9</b> £310	<b>4.92</b> £432	<b>4.94</b> £4596			
<b>Dealer wins or ties all</b>	» -£17.14, £16.80	<b>1.97</b> £8906	<b>1.98</b> £829	<b>1.99</b> £588	<b>2.02</b> £573	<b>2.03</b> £807	<b>2.04</b> £8581			

If the stake for the player (the green number, this case £20.00) is more than the red number on the 'Dealer wins or ties all' (in this case £17.14), you are ready to go!

Once you are happy, click on 'SUBMIT' to place both bets together.

### The sums

If Player 3 loses or the dealer wins, you lose your £16.80 liability. However, you also win £16.80 from the 'Dealer wins or ties all' bet. Result: No win, No loss!

If Player 3 wins or the dealer loses, you win £20.00, but you also lose the bet for 'Dealer wins or ties all' of £17.14. Thats £20 minus £17.14, or a net win of £2.86

**THATS: IF THE DEALER WINS, YOU DO NOT LOSE. IF THE DEALER LOSES, YOU DO NOT LOSE!**

How does the B.E.R.Y.L system remove losses?

There is only one scenario where the B.E.R.Y.L system will make a loss. Unlike every other system out there, I do not hide this fact. This is because the B.E.R.Y.L system exploits a little known rule that enables it to reduce your losses dramatically. The only time the system will make a loss is in the rare situation of a 'Dead heat' between player and dealer.

The rules for a 'Dead heat' say:

*'The Dead Heat Rule applies to bets on Exchange Blackjack when there is a tie between a player hand and the dealer the result is a draw or tie. When this occurs, the odds for both the Backers and Layers are divided by 2. '*

This means that all odds you have placed a bet on will be reduced by half. This also means any losses will be drastically reduced!

That is why the system is called:

**B**etfair.**E**xchange.**R**emove.**Y**our.**L**osses

The B.E.R.Y.L system has consistently been my method of trying to make money on Betfair for several years.

Over my time on Betfair, several things have become apparent:

- To use a system, you need a huge time commitment
- A system by its very nature will lose for periods of time as well as win. As long as you win more over a longer term, you will stay in profit.
- I do not have the patience to observe the above two points!

Quite by accident, I came across a guy on the internet who was making consistent profits on Betfair, yet claiming to not actually gamble at all. He said that he was so confident that I or anyone else using his method would not lose, he would offer the following guarantee:

I read his blog. He is very successfully heading for his target of turning £200 into £12,000 in a year.

I will never be able to retire from his method, but I do know I am GUARANTEED to make £200 to £1000 per month 100% RISK FREE!

His website is [here](#).

Never take a risk on betting sites ever again!
